

A nutraceutical manufacturer needed to create multi-packs for their high volume melatonin gummies.

CASE STUDY:

SHRINK SLEEVE EQUIPMENT

CHALLENGE #1:

Customer first needed to apply a full body (tamper evident + primary) label to individual containers at 200PPM

CHALLENGE #2:

Additionally, customer wanted to create multi-packs for club stores at 65PPM

CHALLENGE #3:

Large shrink application area with rounded square jars and precise orientation

CHALLENGE #4:

15+ SKUs with different shapes and diameters

SOLUTION:

- 2 HSA-405 Shrink Sleeve Applicators
- Custom mandrel and screw to group and orient containers
- Max Applicator Speed: 500PPM
- Lay Flat Range: 40mm - 400mm

LOW, MEDIUM & HIGH SPEED APPLICATORS | TAMPER EVIDENT BANDERS | DRY HEAT & STEAM TUNNELS | CUSTOM SOLUTIONS
